

# Transnational Eco-Event

## “Drivers and outcomes of European Eco-Design initiatives”

17<sup>th</sup> of October, 2018

10.00 – 15.00 (CET)

The EU movement from linear towards circular economy models implies a number of important transformation changes, not only for products or services but also in new business models and the way all those involved interact. Learn about the best practice examples on eco-innovation product design and gain a new knowledge in the field of circular economy driven initiatives.

**Join us at the Transnational Eco-Event: Drivers and outcomes of Innovative Eco-Design initiatives, on Wednesday, 17<sup>th</sup> of October 2018, from 10 am to 3 pm at the CELEIA Hotel (Mariborska cesta 3, SI-3000 Celje) and get acquainted with the following contents:**

- New eco-innovation approaches of European Designers in Packaging, Electronic and Textile Sectors
- Presentation of five free online courses for gaining a new knowledge on bioplastic material transformation
- New policy initiatives on Industrial Symbiosis for Regional Sustainable Growth and Efficient Circular Economy
- New Eco-design Mindset: "Your trash is my treasure"
- Sharing of best practices on eco-innovation designs from recently adopted EU project initiatives
- Key messages on Competent Centres for Human Resources Development
- An example of the key competences & skills strengthening in manufacturing industry

**Organised by:**

Slovenian Tool and Die Development Center
